EMAC and Public Assistance - 2017 Winter Storms

Cal OES Recovery Division identified the need for Public Assistance subject matter experts to assist with the aftermath of the 2017 Severe Winter Storms. Accordingly, Cal OES requested assistance from other states through the Emergency Management Assistance Compact (EMAC) - the Nation's mutual-aid system. New Jersey and Colorado provided personnel that arrived on Monday, 06/13/17. Both states along with other potential states will be providing support between now and the beginning of September at various Joint Field Offices throughout California. The goal is to assist those impacted counties in identifying disaster related damage and program eligibility.

SITUATION SUMMARY

2017 Statewide Winter Storms

Cal OES Coastal Region

Paul's Slide, State Route 1, Monterey County

Per Cal OES Coastal Duty Officer (CDO), as of 1300 hours on 05/25/17, Paul's Slide on State Route 1 has been closed to all traffic.

- Caltrans engineers report slide activity and the area has been closed in the interest of public safety.
- Assessment will commence and further details will be provided once released.

Mud Creek Slide, State Route 1, Monterey County

The Mud Creek area on State Route 1 sustained a major slide on the evening of 05/20/17, when over a million tons of rock and dirt fell down the slope continuing down to the ocean floor 250 feet off the shoreline.

- The Mud Creek area is ¼ mile in length, made up of five slides, four of which fell during this single incident and consolidated into one slide. The remaining slide now extends 1,500 feet in length over State Route 1 and is about 35 to 40 feet deep.
- Roadwork at Mud Creek was suspended and heavy equipment removed due to the threat of new slides and for safety of highway workers. Caltrans geologists and engineers plan to assess it further when this area stabilizes.
- Estimated opening date is 06/01/18.

Pfeiffer Bridge Incident, Monterey County

California Highway Patrol (CHP) and Caltrans had a hard closure on the Pfeiffer Bridge on HWY 1 at mile marker 45.52 (SB Sycamore Canyon and the Bridge) due to a crack in the bridge. The bridge has been demolished so the road is closed and estimates for some access from the north is late September 2017.

- Backup air medical transport plans have been developed for medical emergencies through Cal OES Law Enforcement Branch.
- All businesses north of the Pfeiffer Canyon Bridge closure are open to the public.
- Caltrans will continue the process of delivering construction materials and equipment to the site of the demolished bridge on HWY 1 via Nacimiento-Fergusson Road from Hwy 101 on Thursday, 06/15/17.
- Some equipment will begin moving out one piece at a time throughout the week. These convoys of equipment will be escorted by CHP.

SITUATION SUMMARY

2017 Statewide Winter Storms

Cal OES Inland Region

River Forecast - The following rivers are forecast to meet or exceed Monitor Stage:

- Placer County: Truckee River at Truckee
- Alpine County: East Fork Carson River at Markleeville

Please see link for River Forecast Guidance - <http://www.cnrfc.noaa.gov/>

Cal OES Southern Region

River Forecast - The following river is forecast to meet or exceed Flood Stage:

- Mono County: West Walker River at Highway 395 below Little Walker is forecast to exceed flood stage 6.1 feet the evening of 06/17/17
 - Potential Impacts: Some minor flooding of lowlands, pastures and rural roads.

Please see link for River Forecast Guidance - <http://www.cnrfc.noaa.gov/>

No 911 Outages	No 911 Outages	No 911 Outages

Service Interruptions:

9-1-1 Outage, Apple Valley, San Bernardino County (Initial/Final)

On 06/14/17 at 0858 hours, the California State Warning Center (CSWC) was notified by the Cal OES 911 Branch of an outage in Apple Valley, San Bernardino County. The outage occurred 06/14/17 at 0332 hours and was repaired at 0609 hours.

- 855 customers were impacted.
- No dial tones on customer lines.
- Customers were unable to access 9-1-1.
- The outage is due to unknown causes.
- Frontier Communications had technicians at the Central Office (CO) to diagnose the issue and rest the equipment.
- Total time of outage was 2 hours and 37 minutes.

Remote/Community Isolations:

- None reported

WEATHER OF CONCERN

Weather of Concern

- A warming trend this week will produce very warm temperatures through Friday, with the heat wave expected to continue through the weekend into early next week. By Friday, daytime high temperatures will reach the upper 90s across the Los Angeles County valleys, with highs over 100 degrees in the Antelope Valley as well as interior San Luis Obispo County Valleys and the Cuyama Valley.

Active Weather Warnings, Watches and Advisories by County:

- http://www.wrh.noaa.gov/sto/brief/wwa_bc_cal.php - Temporarily unavailable.
- <https://alerts-v2.weather.gov/counties/CA>

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

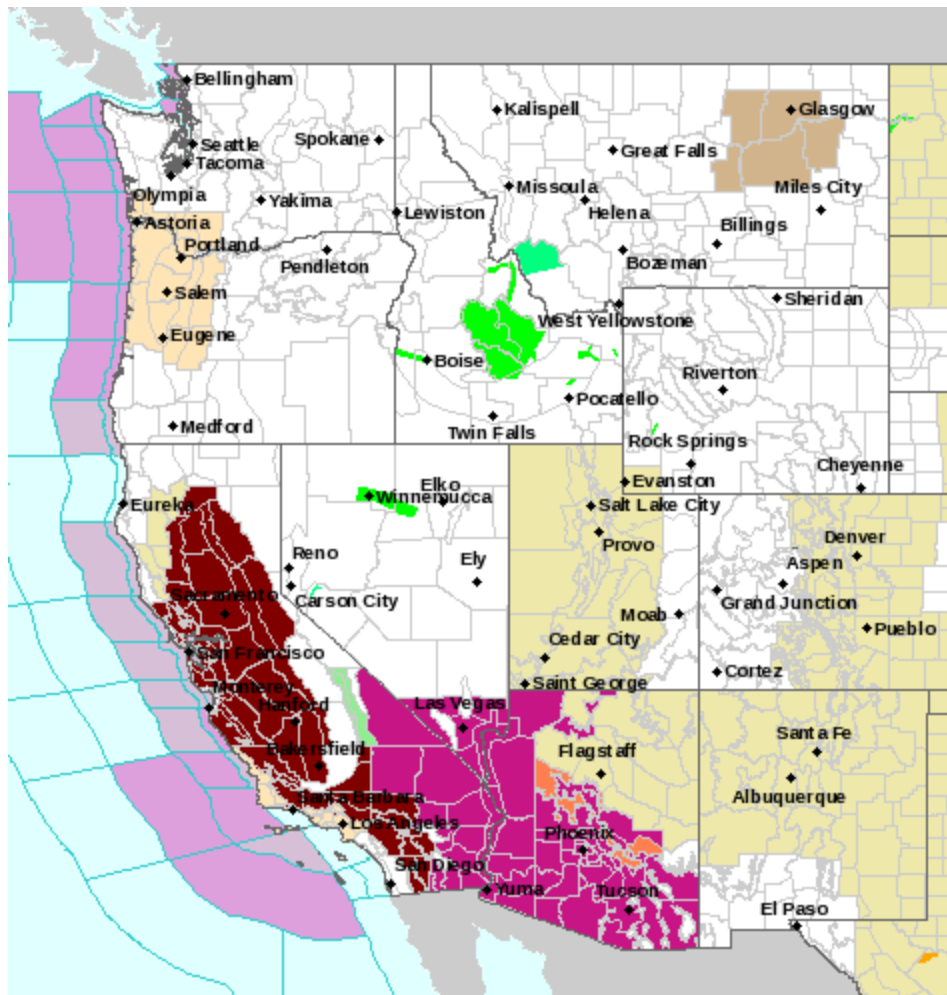

Westerly flow from over the Pacific will be the weather pattern in the Northern California region for the next few days as higher pressure takes over. There will be some cloudiness lingering near the Oregon border and the northwest corner of the state for a few days as well with a slight chance of light showers over the far northwest corner Thursday. Otherwise, there will be sunny skies and a marked warming trend across the region this week. The warming trend will generate a daily increase in afternoon highs through this weekend. The warmest inland valleys will be around 100 Friday and generally 105-108 Sunday through next Tuesday with the very hottest locations possibly near 110. Some periods of gusty northerly winds are expected to develop, probably as early as Friday night that will continue this weekend. Gusts of 20-25 mph should be pretty common in the usual areas favored by the north winds, and overnight gusts to around 30 mph may be locally possible. Afternoon winds are more likely to become northwest to north. Poor overnight relative humidity recovery can be expected this weekend and early next week under those wind conditions as well, with minimum afternoon relative humidity 8-15% in many areas, and only up to around 30% at night. There will be a small chance of very isolated afternoon and evening thunderstorms developing over the northern and eastern mountains Saturday and Sunday, but they will most likely be near the Nevada border if they occur at all.

SOUTHERN CALIFORNIA

High pressure over the Eastern Pacific is expected to expand eastward over the next few days. This will lead to sunny skies and very warm temperatures. This morning, local north winds of 15-25 mph are occurring near the I-5 Corridor. Expect these winds to continue through the early morning hours before ending by noon. Temperatures today will be 5-7 degrees warmer and highs will reach the upper 80s to lower 90s in the warmest inland valleys. Minimum relative humidity will drop into the teens across many areas away from the coast below 7,000 feet. Gusty northwest winds of 15-25 mph will be possible along the central coast to Vandenberg Air Force Base during the afternoon hours. Expect very similar weather Thursday and Friday with temperatures climbing 3-5 degrees each day. Friday will likely be the warmest day this week as a weak onshore flow may bring a slight bit of cooling over the weekend. Highs by Friday will reach the upper 90s in the valleys to 110 in the low desert. Although relative humidity will be in the teens 6-8 hours each day, expect good relative humidity recovery over most lower elevations due to light winds and clear skies. Next week, a stronger ridge of high pressure is expected to build over the Southwest. This will cause temperatures to climb again during the first half of next week. Highs will likely be over 100 in the valleys and lower foothills next Monday through Wednesday with minimum relative humidity possibly falling into the 8-12 percent range. No precipitation is expected through the period.

Cal OES LAW ENFORCEMENT MISSIONS

Ongoing Cal OES Missions

- **2017-LAW-36305, 6/08/17, 2305 hours,** The El Dorado County Sheriff's Office (EDSO) and the US Coast Guard (USCG) Station Lake Tahoe are working a joint search and rescue (SAR) for a missing Vietnamese male in his 40's who disappeared while kayaking earlier Thursday. The USCG, who is handling the air support side, made a request for an HH-60 out of NAS through the Air Force Rescue Coordination Center (AFRCC), which was approved. The Fallon airship will supplement a fixed wing out of USCG Sacramento and a local CHP helicopter. EDSO continues searching with ground and marine teams. **Update: 6/9/17, 1500 hours,** EDSO advised weather conditions have deteriorated; air and marine assets have been recalled due to unsafe search conditions. Mission suspended until weather conditions improve. **Update: 6/11/17, 0600 hours,** Per USCG Station Lake Tahoe, both air and water searching are suspended again today due to high winds. El Dorado SO SAR will be utilizing K9s to search on land today beginning at 0900 hours. **Update: 6/11/17, 1330 hours,** EDSO is requesting the Alameda County Sheriff's Office (ASO) Unmanned Aerial Vehicle (UAV) to assist on Tuesday, 6/13/17. ASO accepted the request and will send 3 teams. They will meet at 0700 hrs. at the EDSO South Lake Tahoe Station for a briefing. This will be a single day operation. **Update: 6/13/17 2001 hours,** Per EDSO, the ASO UAV Team completed their assignment and have returned to their home station. EDSO has requested Placer County Sheriff's Office's Dive Team and Remote Operated Vehicle (ROV) for an Operational Period on Wednesday, 06/14/17. Placer County Sheriff's Office has accepted the mission. The search will begin at 06/14/17, 0900 hours at Lester Beach. **Mission Ongoing.**

Cal OES MISSIONS

Cal OES Missions

- **2017-SOC-34379:** Technical specialist for spillway floor inspections at Oroville Dam, Butte OA – Demobilizing
- **2017-Cal OES-35819:** Twelve Caltrans engineers requested to conduct damage and site inspections throughout the state for impacts related to 2017 February Winter Storms. The lead engineer will report to the Joint Field Office to coordinate the response.

Presidential Declaration Storms – FEMA-4301-DR-CA & FEMA-4305-DR-CA

- Preliminary Damage Assessments are complete for counties named under Presidential Declaration FEMA-4301-DR-CA and FEMA-4305-DR-CA: Alameda, Amador, Butte, Calaveras, Contra Costa, El Dorado, Humboldt, Inyo, Kern, Lake, Lassen, Los Angeles, Marin, Mendocino, Merced, Mono, Monterey, Napa, Nevada, Orange, Placer, Plumas, Riverside, Sacramento, San Benito, San Diego, San Luis Obispo, San Mateo, Santa Barbara, Santa Clara, Santa Cruz, Shasta, Sierra, Siskiyou, Solano, Sonoma, Sutter, Trinity, Tuolumne, Yolo, Yuba

Presidential Major Disaster Declaration - FEMA-4308-DR-CA

- Assistance for emergency work and the repair or replacement of disaster-damaged facilities: Alameda, Alpine, Amador, Butte, Calaveras, Colusa, Contra Costa, Del Norte, El Dorado, Glenn, Humboldt, Kings, Lake, Lassen, Marin, Mariposa, Merced, Modoc, Monterey, Napa, Nevada, Plumas, Sacramento, San Benito, San Joaquin, San Luis Obispo, San Mateo, Santa Barbara, Santa Clara, Santa Cruz, Shasta, Sierra, Siskiyou, Solano, Sonoma, Stanislaus, Sutter, Tehama, Trinity, Tuolumne, Yolo, and Yuba Counties.

Cal OES

GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
